

# Meet David: A CSS Success Story

## David's Promotion at Kohl's

When David learned about CSS, his father had recently died. He agreed that living in a nearby CSS Residential Home was the best place to gain the skills necessary to one day live independently. Today, David's progress is remarkable. He is employed at Kohl's where he is so committed to his job that he has learned to take public transportation from Lyons to Elmhurst each day. With such dedication, it's no wonder Kohl's hired and promoted him in just 4 months. CSS' Customized Employment Services staff matched David with the Kohl's opportunity and handled all of the training for his online order fulfillment job. His Job Coach, Maria Davis, provides ongoing support for David and his manager to ensure this continues to be a great partnership. David loves his work and says his job brings him pride and independence.
